**Bursary Committee**

Tomorrow Trust

Dear Members of the Bursary Committee,

I am writing to wholeheartedly recommend Kgahlabje Mahlomola Seepe for the bursary award to pursue an Honours degree in Computer Science. As Kgahlabje's lecturer at Sol Plaatje University, where I have taught them over the past one and half years, I have witnessed their exceptional academic abilities, work ethic, and commitment to leveraging technology to make a positive impact on society.

Kgahlabje has demonstrated academic excellence throughout their undergraduate studies in Computer Science. Their ability to grasp complex technical concepts and apply them in practical projects is truly remarkable. For instance, Kgahlabje has undertaken various challenging projects, such as the development of a residence management system and a spam email detection system using Artificial Intelligence and Natural Language Processing. These projects highlight Kgahlabje's technical competence, problem-solving skills, and ability to deliver meaningful results in real-world scenarios.

Beyond their technical abilities, Kgahlabje is a natural leader and has served as both a peer mentor and a tutor, roles in which they have consistently demonstrated strong communication skills, empathy, and a genuine desire to help others succeed. These leadership qualities, coupled with their passion for innovation and learning, make them a well-rounded and outstanding student.

Kgahlabje's background growing up in a rural village in Limpopo has significantly shaped their drive to pursue higher education and their determination to use technology to address socio-economic challenges. This personal motivation is reflected in their consistent pursuit of excellence despite facing resource limitations. I am confident that, with the support of this bursary, Kgahlabje will continue to make strides not only in their academic journey but also in their mission to use technology for social good.

I strongly believe that Kgahlabje's academic potential, coupled with their leadership qualities and commitment to societal improvement, make them a highly deserving candidate for this bursary. The financial assistance will enable them to focus fully on their studies, allowing them to continue developing innovative solutions that can benefit underdeveloped communities.

Sincerely,

**Mnoneleli Nogwina**
